

## What's the best air heating system for my boat?

- 1** Select the length corresponding to your boat.
- 2** From there, trace a line to the left until you come to the line corresponding to the waters in which you plan to operate.
- 3** From there, trace a line vertically downwards until you come to the line corresponding to the season in which you plan to operate.
- 4** From there, trace a line to the right. You find the line corresponding to your type of boat in the upper section and trace a line vertically downwards – that's the recommended system.
