

# Choosing the Right Sunroof

## 1 Choose Top Mount or Flush Mount?

Determine which type of sunroof you need for your boat, either Top Mount or Flush Mount. With Top Mount the sunroof sets on top of the boat roof. With Flush Mount the top surface of the sunroof is flush with the boat's roof.

## 2 Select Sunroof Model

Determine the dimensions of the sunroof you want and make sure that your existing roof can accommodate those dimensions and the proper curvature. Choose the sunroof model from the list to the right and use the chart below to check that you have enough room in your boat roof for that sunroof.

Top Mount Sunroof Part Number	Min. Space Needed, Side-to-Side	Min. Space Needed, Front-to-Rear
3391875A	60 in / 1524 mm	86.6 in / 2200 mm
3391877A	43.3 in / 1100 mm	86.6 in / 2200 mm
3391945A	31.5 in / 800 mm	63 in / 1600 mm
3392069A	70.9 in / 1800 mm	74.8 in / 1900 mm
3392070A	66.6 in / 1690 mm	74.8 in / 1900 mm

Flush Mount Sunroof Part Number	Min. Space Needed, Side-to-Side	Min. Space Needed, Front-to-Rear
3391876A*	60 in / 1524 mm	86.6 in / 2200 mm
3391878A*	66 in / 1676.4 mm	86.6 in / 2200 mm
3392068A*	58.7 in / 1490 mm	78.8 in / 2000 mm

\* Flush Mount sunroof requires specific roof structure. Please check with Webasto Marine Engineer to ensure proper fit.

## 3 Choose Options

A combination sunshade and screen is an option for all sunroofs. A fixed rear panel is also an option for each sunroof, and a sunshade/screen can be added to these as well. Determine which options you want.

- Rear Fixed Panel
- Sunshade/Screen for Front Panel
- Sunshade/Screen for Rear Panel
